

## SUBJECT INDEX

*This index does not include routine reports of clubs, societies, concerts etc or moot reports*

*Notices of non-Inn appointments are included only when they contain biographical, career or personal information unlikely to be noted elsewhere*

*Where headings with more than one entry over a period of time contain titles of nobility or where headings contain job titles the title included is always the highest or latest.*

*One-off references to Inn staff are indexed up to 1992/3; from 1993, Graya includes a list of staff members so only significant references to staff are indexed.*

*Portrait photographs are generally described as portraits unless it is necessary to distinguish them from paintings and drawings*

*There are separate indexes to authors and obituaries*
